

Im young and energized
got nothing heavy laying on my mind
I feel good day and night
no problems keeping me
from what I like
so I go where I want to go
knowing full well I reap what I sow
but I do just what I please
cause ain't no shame in feelin free
I say what I wanna
I do what I wanna
be cool if I wanna
that my prerogative
Im fresh and fly
living my life
doing what I want
every single day and night
I good life good good life
I live a good life, good good life yeah!
what is do is not reckless
I know im just the opposite yeah

being free is not a crime

but it is for those who don't use there mine

see am smart and in control

and I can be happy without selling my soul

Yeah its true that life can be hard

but I won't give into the pressure or let down my guard

I say what I wanna

I do what I wanna

be cool if I wanna

that my prerogative

Im fresh and fly

living my life

doing what I want

every single day and night

I good life good good life

I live a good life, good good life yeah!

I wasn't born to work my life away

I wasn't born to be a zombie or slave

I was created to be happy and free

so celebrate life night and day

a good life, good good life,

I live a, good life, good good life

I live a, good life, good good life

and I'm gonna keep on living this life

I say what I wanna

I do what I wanna

be cool if I wanna

that my prerogative

Im fresh and fly

living my life

doing what I want

every single day and night

I good life good good life

I live a good life, good good life yeah!

Uh uhhh..

I say what I wanna

I do what I wanna

be cool if I wanna

that my prerogative

Im fresh and fly

living my life

doing what I want

every single day and night

I good life good good life

I live a good life, good good life yeah!
