

Let It Go - Elishema

uh...

ye...e..ah...

oh...

in my life I've been hurt so many times

and these situations keep coming up in my mind

all the pain and frustration hits, and I can't unwind

realizing how people can be so unkind

i never knew people in the world could be so evil

they come around hating

cause your beautiful

or they want what you got

want to know what you know

or just try to hurt you cause they're feeling Low

i know I know

i can't let them get me down

but the feelings I feel keep hang in around

and I don't wanna get angry

letting them see

they got the best of me, yeah

and we both know misery loves company

that's right they just want to sit back and torture me

cause if I buy in

they know that they're winning

so no more will I give in

I'm gonna just

oh let it go let it go

can't take this feeling no more

just oh let it go let it go

can't let them make me feel low

oh let it go let it go

let my positive energy flow

just, oh let it go, let it go

and let my happiness grow

i'm the kindest person that you'll ever meet

but sometimes people think of me as being weak

cause I choose to be humble, but they just don't see

all the rage and fire that could take hold of me

but I never really like to show that side

cause being happy, Gives me pride

so sometimes

I got to let things slide

but I'll never get scared and run to hide

uh

I know I know

I should let those people see

that I'm bad and they shouldn't mess with me

but if I start to get upset

making threats

I might end up regretting it

cause we both know

everything has a consequence

and in this world there's no room for accidents

making mistakes

lead to a terrible place

so I rather save grace

and I gotta just

oh let it go let it go

can't take this feeling no more

just oh let it go let it go

can't let them make me feel low

just, oh let it go let it go

let my positive energy flow

just, oh let it go, let it go

and let my happiness grow

I'm feed up, yeah

i wanna get on with my life

so I am gonna

oh, let it go, let it go

and never hurt no more...

just, oh let it go let it go

I'm tired of feeling low

oh let it go, let it

let positive take control

oh let it go, let it go

and let my happiness grow

I gotta let it go, you gotta let it go,

take control, find peace in your soul

yeah, let the heartache go

just let it go

let it go, let it go, yeah

let it go, let it go, and grow..
